## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-3, 5-35, 40, 41, and 43 are allowed.
2. The following is an examiner's statement of reasons for allowance:

With regard to claims 1-3, 5-7, 40, 41, and 43, the prior art discloses an x-ray tube that comprises: an evacuated enclosure containing an electron source and an anode positioned to receive electrons produced by the electron source; and an outer housing containing the evacuated enclosure. However, the prior art fails to disclose a mounting assembly that comprises a first mounting portion and a second mounting portion comprising a clamp as claimed.

With regard to claims 8-15, the prior art discloses an x-ray tube that comprises: an evacuated enclosure containing an electron source and an anode positioned to receive electrons produced by the electron source; and an outer housing containing the evacuated enclosure. However, the prior art fails to disclose a mounting assembly that comprises a bracket portion and a clamp portion as claimed.

With regard to claim 16-20, the prior art discloses a method of joining an evacuated enclosure to a structure, the method comprises: attaching a clamp portion of a mounting assembly to a bracket portion of the mounting assembly such that an aperture defined in the clamp portion is aligned with an aperture defined in the bracket portion. However, the prior art fails to teach or fairly suggest that the evacuated enclosure includes a window assembly attached to an aperture defined in the evacuated enclosure, and a step of attaching the clamp portion of the mounting assembly to an extended segment of the window assembly attached to the evacuated

enclosure such that a window located in the window assembly is aligned with the apertures of the clamp portion and the bracket portion as claimed.

With regard to claims 21-29, the prior art discloses an x-ray tube that comprises: an evacuated enclosure containing an electron source and a rotary anode positioned to receive electrons emitted by the electron source; a window assembly attached about an aperture formed in the evacuated enclosure comprising an x-ray transmissive window. However the prior art fails to disclose a mounting assembly that comprises a clamp portion and a bracket portion as claimed.

With regard to claims 30-35, the prior art discloses an x-ray generating device that comprises: a device body; an x-ray tube that includes an evacuated enclosure containing an electron source and a rotary anode positioned to receive electrons emitted by the electron source; and a mounting assembly that attaches the x-ray tube to the device body, the mounting assembly including a bracket portion that mechanically attaches to a portion of the device body, and a clamp portion that frictionally engages a portion of the evacuated enclosure proximate an x-ray transmissive window that is located on a surface of the evacuated enclosure, wherein the clamp portion is also mechanically attached to the bracket portion. However, the prior art fails to disclose a mounting assembly that singularly supports the evacuated enclosure in a specified position with respect to the device body as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Response to Amendment***

3. Applicant's amendments filed 29 May 2007 with respect to claim 6 have been fully considered and are persuasive. The objection of claim 6 has been withdrawn.
4. Applicant's amendments filed 29 May 2007 with respect to claims 10 and 11 have been fully considered and are persuasive. The objection of claims 10 and 11 has been withdrawn.
5. Applicant's amendments filed 29 May 2007 with respect to claim 15 have been fully considered and are persuasive. The objection of claim 15 has been withdrawn.
6. Applicant's amendments filed 29 May 2007 with respect to claims 28 and 29 have been fully considered and are persuasive. The rejection of claims 28 and 29 under 35 U.S.C. 112, second paragraph, has been withdrawn.
7. Applicant's amendments filed 29 May 2007 with respect to claims 1, 7, 40, 41, and 43 have been fully considered and are persuasive. The rejection of claims 1, 7, 40, 41, and 43 under 35 U.S.C. 102(b) as being anticipated by Findlay (U. S. Patent No. 2,344,543) has been withdrawn.
